Bonus Drawing – 2018 RPRU Cotton Picker Show Toy

As few Chapter 3 members were able to attend this year's 2018 Red Power Roundup in Alabama due to the distance, members now have an opportunity to win a feature item from the Roundup – a 1953 Super M with 314 Cotton Picker Show Toy. Production of this highly detailed 1:16 scale Die Cast replica by SpecCast was limited to 1200 units and was nearly sold out by the show's end. There has never been a production replica

of an IH Cotton Picker produced prior to the 2018 RPRU and there will likely not be another, so this item is sure to be a future collectible.

To encourage ticket purchases for the Super A fundraiser tractor amongst members, those purchasing donation tickets at the 4th Quarter 2018 and 1st quarter

**314
COTTON
PICKER**

"You'll get a high turnout from your cotton acreage with an IH mounted or self-propelled picker. Aggressive, yet gentle picking action gets open bolls, leaves green bolls undamaged to mature for later pickings. When you figure your profits per acre at season's end - you'll find you're dollars ahead with an IH picker."

New, one-row mounted pickers bring self-propelled efficiency to the smaller grower. You get IH top quality picking and cleaning at lowest cost, and, when harvesting is finished, picker can be removed to free tractor for other work."

NCK Tech Reports IHC Truck is a 'Slow Work In Progress'

The North Central Kansas Technical College Diesel Department reports the restoration project on the IH truck that Chapter 3 donated is a slow work in progress. Below are pictures and comments from their Facebook page.

We got this project in different stages. Four years ago we had a 5.9 Cummins donated to us that we added some performance parts to. Two years ago we had this 1955 IH R160 donated to us. Around the same time we received a 1999 Ford F450.

We took the power train out from under the IH and replaced it with the 450. We have been piecing and modifying it piece by piece. We are putting a Stahl service body on it.

New exhaust stacks installed

Old motor

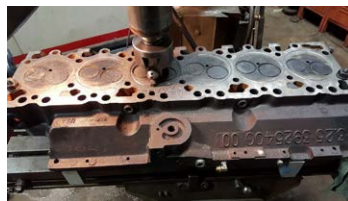

The shop truck's new engine! What do you all think? Ceramic marine pistons, bigger Hamilton cam, 100 hp injectors, girdle and studded with fire ring, beehive valve springs.

Service body installation

New bumper

Finally got the fire ring grooves cut in our 5.9 project truck head. Thanks to Finney Machine for your guidance, assistance, and use of your shop.

Members may also post IH items for sale.

- The committee met with the Meriden leadership this morning, 9/22/18. A new order for winter clothing will soon be placed.

Super A Fundraiser Tractor Drawing: Director Schmitt asked the question as to whether the drawing for the fundraiser tractor should be held at Tri-State show in Bird City in lieu of the Meriden show a week earlier. When the decision was made to have the drawing at the Meriden show, we didn't know about the opportunity for attending the Bird City show. This would also provide one more opportunity for ticket donation sales. Based on this all Directors agreed to leave it as originally planned.

Fundraiser Tractor Bonus Drawing: To help spur tickets for the Super A fundraiser tractor amongst members, a 2018 RPRU Cotton Picker has been donated to use for a Bonus Drawing. Tickets sold to members at 4Q-2018 and 1Q-2019 meetings will apply to both prizes. Director K. Connelly moved to accept the donation of the Cotton Picker and sell tickets to members for both drawings at the 4Q-2018 and 1Q-2019 meetings and hold drawing for the picker at the conclusion of 1Q meeting, Hannemann 2nd. Red Power Magazine features Herrs Museum

A great story featuring Herrs Memory Lane Museum was in the September-October 2018 Red Power Magazine. The story tells the history and highlights a number of the items in the museum along with pictures. It is an honor to have Lawrence with his talents as a member of the Kansas Chapter 3 Club and promoting our history in Kansas. If you missed the article a copy will be available for you to read.

Tragedy Strikes at Buerki Residence

Member Lynn Buerki of rural Goddard had tragedy strike in June, destroying all of his antique tractors along with five trucks, and numerous tools and other equipment. The fire also consumed a great deal of family history, and that loss hurt as much as anything. The tractors that were lost: W-4 (1944) Lynn had painted and restored; W-6 (1952) this was also Lynn's first tractor. Lynn had painted and restored; Farmall 100 with cultivator, Lynn used this tractor to cultivate around trees that were planted every year. This tractor also ran a grain auger when filling bins with wheat; 1954 IHC Cub with Woods Belly mower. Lynn mowed with this all the time; F-12 (1936) this was a project in progress; Farmall B (1941); McCormick Deering 100 Manure Spreader, his daughter had painted; 504 - Utility tractor (1962) painted and parade ready. Lynn has a want-ad in Rustic Corner hoping to replace some of his loss.

Lunginsland Featured in Orscheln Calendar

Member Rae Lunginsland from Hutchinson was featured in Orscheln Farm & Home 2018 calendar for the month of February. He was one of only two antique tractors owners from Kansas that was selected. The bright red 1947 Farmall B has a special place in Lunginsland's heart. He remembers the day his dad purchased the tractor at a neighbor's farm sale in 1950 when he was 12 years old. His dad farmed with it for 30 years and his brother for another 30 years. For the past seven years, the tractor has been his, he restored it with the help of a neighbor. He drives the tractor to the state fair for the annual antique tractor day event.

Harvester Heritage SEEKS your Story!

International Harvester Company, and the world-wide dealer organization serving customers, became one of the most significant organizations for the betterment of mankind the world has ever known.

There are many untold stories reflecting the incredible contributions of IHC dealers and customers as well as related personnel that urgently need to be captured. Our purpose is to reach out to all IH folks to document as many of those stories as possible.

Every one of us has had some interesting experience involving IHC products or IH dealer or Company personnel. Please go to harvesterheritage.org ...and enjoy the stories that we have uploaded.

Then please click on "Submit your Story" which is an easy to use document and then click on the red "PDF" button to share your story. Your family will be glad you did!

Check it out! www.ihckansas3.org Chapter 3 has a new website!

The website is still under construction but looking good. Members only will be able to access the current newsletter, and must submit an email and password on the website and have approval before gaining access. *The email address used to apply for site access must be on file and linked to your Chapter #3 membership on file with the club secretary in order to verify name and member status.*
